Battery Energy Storage Systems Symposium and Annual Business Meeting

Program: This full day symposium will provide presentations on a variety of battery energy storage system topics and will address both indoor and outdoor installations. The topics to be presented include an overview of battery energy systems (BESS) and a checklist for submittals, what is included in a Hazard Mitigation Analysis (HMA) and how UL 9540A tests apply, a discussion of deflagration protection (venting and suppression), community risk assessments, and plume modeling, and a question and answer session.

During lunch, MBOA will have its Annual Meeting along with a vote on a bylaw update, annual awards and raffle.

This will be an ICC accredited seminar with **.6 ceu credit hours for ICC members only.**

Instructor: *Multiple Presenters*

Presenters are members of the Chesapeake Chapter of the Society of Fire Protection Engineers (SFPE) or are affiliated with the chapter.

Date: December 12, 2024 8:00 am - 3:00 pm
