P.O. Box 157, Sykesville, Maryland 21784

## Legal Aspects of Code Administration

**Program:** In this course, participants will discuss historical consequences of ignoring the regulation of building construction and materials, and learn how to interpret and apply local, state, and federal legislative laws, pertaining to the administration and enforcement of a building code. Participants will also be able to define and apply concepts which are legally important to the administration and enforcement of a building code and establish or document rules of procedure used before a board of building code appeals. By using the guidelines presented in the course, participants will learn how to effectively testify in a court of law.

This will be an ICC accredited seminar with **.6 ceu credit hours for ICC members only.**

### **Instructor: *William (Bill) Clayton, CBO, CHCO, BCP***

Mr. Clayton graduated from Evergreen State Olympia Vocational Technical Institute in 1973 with a degree in Farriers Science and pursued a course of Study in Architectural design. Upon graduation he opened a design/build firm in the state of Oregon and expanded into 4 states and a company with over 300 employees. After watching his company grow, he sold and retired and became a race car driver, but interest in codes pushed him to go to work as an inspector in 1991 where he developed his knowledge and became a Combination Inspector, Plans Examiner then eventually a CBO of a large jurisdiction before going to work as a code consultant and instructor with Colorado Code Consulting which has now merged with Shums Coda associates in 2020.

Mr. Clayton holds 22 ICBO and ICC certifications, 4 FEMA, State of Colorado third party school inspector, State of California Emergency Services Inspector and has been an ICC instructor for over 7 years and an instructor for CCC and Shums Coda for over 10 years.

Bill has served on IEBC committee for 2009 & 2012 and the ICC General committee for 2015 cycle. Bill is currently authoring a book for ICC on Penetration Fire Stopping, Joint Systems and Dampers based on the new 2024 I codes.
